**Principal**

Today, in the era of globalization, knowledge is power. Engineering Education plays a vital role in nation building, corporate sectors and industries. We strongly believe that students, if properly nurtured and educated, can become important assets of society and nation, Keeping in mind that the student is the focal point of all activities we have started this mentoring activity.

Mentoring is a process in which an experienced individual helps another person to develop his or her goals and skills through a series of time-limited, confidential, one to one conversations and other learning activities. Mentors also draw benefits from the mentoring relationship. As a mentor, you will have the opportunity to share your wisdom and experiences, evolve your own thinking, develop a new relationship, and deepen your skills as a mentor. As we have a team of dynamic, talented and devoted teachers to help the students to bring the best out of them.

Our basic objective is to impart quality education through effective learning methodologies and to develop a positive attitude and moral values amongst the students.

## **The Basic Concept of Mentoring:**

Mentorship is a relationship in which a more experienced or more knowledgeable person helps to guide a less experienced or less knowledgeable person. The mentor may be older or younger than the person being mentored, but he or she must have a certain area of expertise. It is a learning and development partnership between someone with vast experience and someone who wants to learn. Mentorship experience and relationship structure affect the "amount of psychosocial support, career guidance, role modeling, and communication that occurs in the mentoring relationships in which the proteges and mentors engaged.

"Mentoring" is a process that always involves communication and is relationship-based, but its precise definition is elusive, with more than 50 definitions currently in use. One definition of the many that have been proposed is, "mentoring is a process for the informal transmission of knowledge, social capital, and the psychosocial support perceived by the recipient as relevant to work, career or professional development; mentoring entails informal communication, usually face-to-face and during a sustained period of time, between a person who is perceived to have greater relevant knowledge, wisdom, or experience (the mentor) and a person who is perceived to have less".

Mentoring means making a sincere effort to communicate with a student, with an open heart and an open mind.

Good mentoring practice empowers students by encouraging and supporting each student in successful achievement of goals, and adapting to the academic, social, political and cultural mores of the institution.

**"EVERY GREAT ACHIEVER IS INSPIRED BY A GREAT MENTOR."**

## Aim & Objectives

**Aim of the Program:** The aim of mentoring is to promote positive change in an individual while building a healthy relationship. The mentoring program is also devised to encourage students from non-English speaking backgrounds and those from rural and remote communities.

### Objectives:

- \* Setting up a career development mentoring program for students to learn the skills and behaviours.
- \* Creating a mentoring program for students to give them one-on-one guidance.
- \* To provide a framework for positive interaction between students, Mentors and staff.

### Role of Mentor

During the course of most mentor relationships, mentor roles are likely to include:

- **Guide:** A guide takes you through a journey, providing different pathways and warning of potential pitfalls. A mentor can offer wise perspective and can encourage growth by asking the right questions, throwing out ideas, and keeping conversation and creativity moving. This advisory role also requires the mentor to help the mentee develop professional interests and set realistic career goals.
- **Coach:** A coach provides motivation and feedback. Positive feedback to reinforce behavior and constructive feedback to change behavior. Both types are critical to the professional growth of the mentee. Positive feedback is a great motivating tool for removing doubt and building self-esteem which results in a sense of accomplishment.
- **Advisor:** A mentor works with the mentee to develop a career development plan that outlines what knowledge, skills and abilities are needed to reach career goals.
- **Counselor:** The counselor role establishes a lasting and open relationship. Respect and confidentiality are baselines for this relationship. A mentor encourages the mentee identify their strengths and weaknesses and develop problem-solving skills.
- **Advocate:** An advocate champions the ideas and interests of the mentee. Advocates act as a sponsor, creating opportunities that challenge and instruct the mentee, setting them up for success. The goal is to provide as much exposure and visibility for the mentee, with a minimum of risk. This role primarily involves initiating opportunities for development by helping establish a network of contacts, helpful resources and a path to success.
- **Role Model:** Teaching by example is a mentor's most effective developmental tool.

## **A Successful Mentor**

- \* Value the mentee as a person;
- \* Develop mutual trust and respect;
- \* Maintain confidentiality;
- \* Listen both to what is being said and how it is being said;
- \* Help the mentee solve his or her own problem, rather than give direction;
- \* Focus on the mentee's development and resist the urge to produce a clone.
- \* Respects the student's commitment by making good use of their time and by being prepared and on time for every meeting.

## **Characteristics of an Effective Mentor**

- \* Supportive of the needs and aspirations of the mentee.
- \* Willing to spend time performing mentoring responsibilities.
- \* Respected in the community and profession.
- \* Communicates openly and clearly.
- \* Comfortable providing constructive feedback.
- \* Has a genuine interest in helping others succeed.
- \* A respectful, inspiring and positive attitude.

## **Responsibilities of the Mentor**

- \* Assist your mentee in identifying professional and personal growth goals and objectives.
- \* Assist your mentee in establishing explicit goals and objectives for the relationship.
- \* Commit to meeting with mentee on a regular basis. Establish how and when those meetings will take place.
- \* Complete progress reports and regularly re-assess needs.
- \* Review agreements reached in the Mentoring Agreement at regular intervals of the partnership.
- \* Maintain the confidentiality of the relationship.

## **Characteristics of an Effective Mentee**

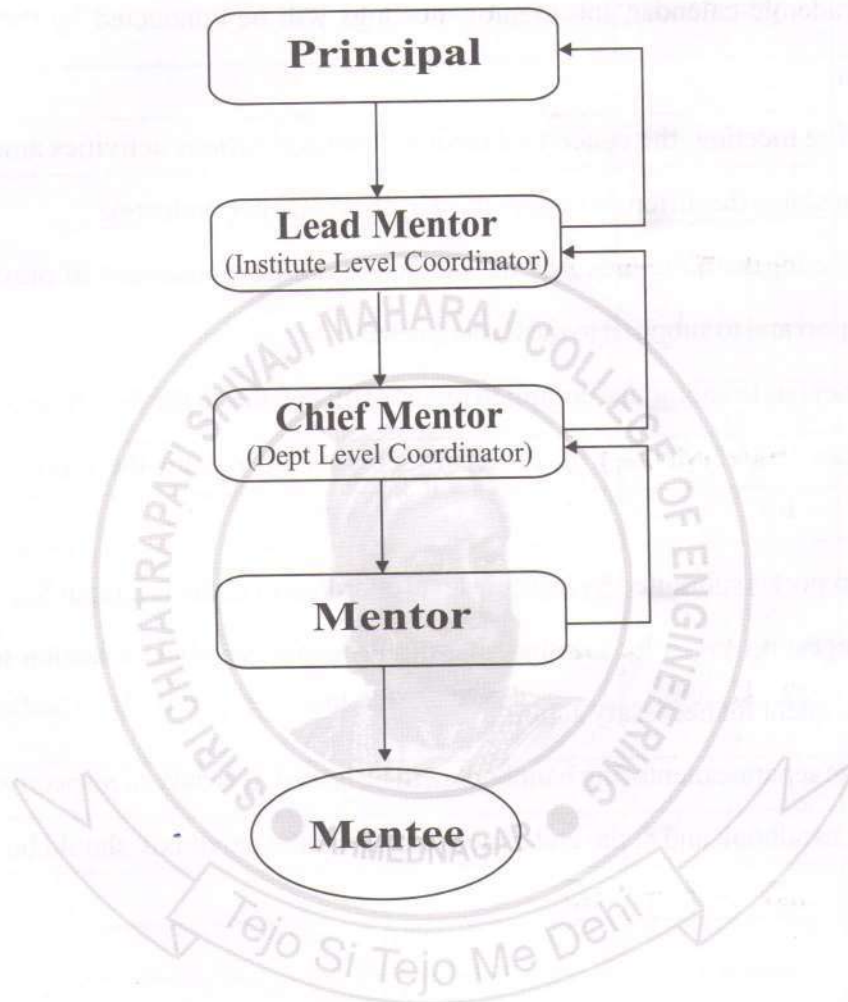

- \* Positive outlook and attitude
- \* Eager and open to learn proactively
- \* Patient, responsive and respectful of mentor's role and time
- \* Comfortable receiving objective feedback
- \* Works as a "team player"
- \* Comfortable being stretched out of a comfort zone

## **Guidelines for the Mentee :**

- \* Allow your mentor to take the lead in the relationship, at least initially. Listen and respect the opportunities, limitations and format of the relationship he or she is able to provide for you. Always act with courtesy and respect towards your mentor.
- \* Use active listening skills during discussions with your mentor. Be careful not to interrupt, unless you need to clarify a point and you see no other opportunity or pause. Take notes when appropriate, ask good questions and have a purpose for your questions.
- \* Prepare the goals and objectives you have for your career. Be prepared to ask for specific guidance and advice on your goals, plans and strategic ideas. The more specific you can be, the easier it will be for your mentor to help you.
- \* Take the initiative to ask for feedback. Feedback, although difficult to hear at times, is critical to your personal and professional growth and development. Demonstrate that you are open to hear new ideas and suggestions to bring out your best and overcome any blind spots. Get feedback on specific issues, for example, how you come across to others. Ask for specific details to ensure you understand specific behaviors. Tell your mentor how you prefer to get feedback (for example, direct, with humor, softened). Don't get defensive. Thank your mentor for taking the risk to be honest with you. Remember, if your mentor was not invested in you, he/she would probably not take this risk. Honest feedback gives you an opportunity to improve yourself and help you to move towards fulfilling your potential.
- \* Always be considerate and respect your mentor's time as you do your own. Be thorough, but succinct in your explanations, experiences and comments. Watch for clues that you may be going on too long. It is polite to ask directly if you are talking too long.
- \* Return phone calls promptly and be on time with commitments or meetings. If your mentor offers a specific time frame of availability, respect his/her wishes by following through. Only extend the time of your contact if your mentor initiates or insists to extend or complete a task or discussion.
- \* Seriously consider all advice or suggestions you receive. Arguing why the mentor's advice would not work, can be construed as rude and close-minded.
- \* Demonstrate that you have followed advice or commitments for action at every opportunity, even if you have modified your plan. Pointing out that you used your mentor's help and sharing outcomes is important.

# Mentoring Process

## A) Flow Chart

## B) Formation of Organization :

1. Formation of batches. ( Batch size- 15 to 20 students)
2. For each batch one Mentor is assigned who is a teacher to this batch.
3. For one class, 3 to 4 batches are there and one Class Teacher is there.
4. For each department, one department coordinator is appointed. (i.e. Chief Mentor)
5. Every department is coordinated by institute level coordinator (i.e. Lead Mentor)

### C) Implementation Process

1. As per the guidelines decided and formed by the respected Principal Sir will be communicated to mentor through HOD's and chief mentor.
2. Chief Mentor of the Department discusses these policies among the HOD, class teacher and mentor.
3. As per the academic calendar, the Mentor meetings will be conducted by the Mentor of their assigned batch.
4. In the Mentoring meeting, the concerned faculty discusses various activities among the students. He/she also considers the different issues raised by the mentees (students).
5. After every meeting with the mentees, the mentor has to take outcomes of previous meeting, to compile the report and to submit it to the Class teacher.
6. The class teacher has to submit the compiled report of all batches to the department Chief Mentor.
7. The Coordinator (Chief Mentor) of all departments has to submit the report to institute level coordinator.
8. The compiled report is submitted by institute level coordinator to the Principal Sir.
9. As per the suggestion given by the students, the Principal Sir gives direction to the concerned faculty or department for necessary action.
10. For each mentee separate mentoring handbook will be issued. It is duty of respective mentor to keep and update the handbook and at the end of academic year the handbook should be submitted in the department.
