**Service / Product : SMART SCHOOL MIS (Cloud Based Management Information System)**

Thank you for the opportunity!

We take this opportunity to introduce a loosely couple yet highly cohesive management information system for your Organization/Institute/Department.

Please find below financial details of all the packages, which can be chosen for billing. You can select any one or multiple or all packages as per your requirements.

Each package has been designed considering basic academic needs of any Organization/Institute/Department. Due care has been taken to automate most of the academic operations including report generations and data security. All packages cover data protection up to three years along with on board SPOC support as and when required.

Facility and performance purely depend on the package chosen. Although it is possible to switch from one facility to another it will not be possible to rollback the financial transactions made.

Hence you are kindly requested to go through all packages, as well as facilities available in each package for issuing purchase order.

**As per your institutes need you can select any number of modules from any package.**

E.g. you can pick some modules from BASIC package, Next few modules from PREMIUM package and Next few modules from BUSINESS package also.

You are just one step away to make your institute live! Here is our challenging price for you..
